CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Implementation of the curriculum Our college prepares action plans for effective implementation of the curriculum at the outset; the Principal and advisory committee of our college conducts meetings with the staff members of various departments to develop various strategies for effective implementation of the curriculum. ? Teachers are encouraged beforehand to impart the curriculum through innovative teaching methods such as presentations, assignments, discussions, workshops, seminars, industrial visits, computer education apart from regular/traditional teaching methods. Thereafter, the staff members of various teaching departments conduct their internal meetings and develop academic plans for the coming academic year. ? Keeping in view, the number of working days available, the syllabus is divided into units which are to be finished by a given deadline. ? Each department of our college follows the academic calendar issued by the affiliating university and the college strictly maintain the academic records which are provided by Commissioner of collegiate Education. Accordingly the college plans its annual academic schedule which clearly mentions the topics to be taught and no. of working days allocated to respective topics, the amount of syllabus is completed and tested in various classes, through monthly unit tests and internal exams. Effectively translating the curriculum and improving teaching practices The curriculum is prescribed by Rayalaseema University, Kurnool to which the college is affiliated and the same is followed. However the lecturers of this institution make suggestions from time to time keeping in view the needs of the society and trends at the national and global levels. Our college also encourages the teachers to participate in the Orientation/Refresher Courses/ Workshops/ Seminars organised by the various Universities to update the knowledge and to improve the teaching practices. Curriculum delivery and transaction on the Curriculum The curriculum adopted is as prescribed by the affiliating university supplementing the academic activities such as debates, group discussions, workshops, exhibitions. Though the curriculum is designed and revised by the University, but for effective curriculum delivery, we give weightage to academic improvement and at the same time give sufficient importance to overall development of students by encouraging them to work with various forums of the college such as Student Council, Faculty forums for overall development of students by encouraging them to work with various items. Our college and the teaching faculty have taken many initiatives for effective delivery of the curriculum. Our college faculty is trained by the computer department to make them familiar with the use of computers so that they are able to use the modern Technological resources like internet, LCD projectors etc. to supplement their class room lectures. In addition to the regular subject classes, the college also organises special lectures by inviting experts from various fields to share their knowledge with the students. The college also organises special Personality Development Programmes for the students. The students are also taken out for educational tours such as industries/trade Fairs, exhibitions and places of historical importance to provide them first-hand knowledge of various things.

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Our college has a clearly set and defined mechanism of obtaining the feedback from the students to improve the performance and quality of the institutional provisions. The advisory committee consisting of the senior teachers collects the feedback from the graduates regarding learning processes. The IQAC has developed a format to obtain the feedback of its students, who are employed in various organizations. The inputs are obtained from them and further used to improvise the overall competency of the students for employability. Students give the feedback about the teachers at the end of each term. Students of each department are expected to do so for all the teachers concerned with their class. Besides, informal interaction between students and the class teacher/Care taker/Principal about issues pertaining to teaching Quality is also encouraged. Teachers are counselled by the senior faculty and/or principal regarding measures to the improve subject, understanding and/or teaching

skills. Pass outs, job holders who studied at our college visit our college frequently for various purposes. In informal chats they give us their valuable feedback regarding the quality of education in our college. Their suggestions are noted with interest and efforts will be made to incorporate their advices wherever possible.

2.5.2 - Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Meeting of the staff council, the examinations committee and the general staff are held by the principal and after necessary deliberations and resolutions the evaluation methods are finalised. In general methods like monthly class tests, quarterly tests, pre final tests, quiz competitions, elocution and essay writing competitions are made use of. The evaluation methods are communicated to the students and the faculty members by means of notices circulated and display on the notice board. After evaluation of the performance of the students, the percentage of attendance/marks/grading obtained by them is communicated to their parents through letters dispatched by post. The studentprogress is discussed with both the student and their parents at the parentteacher meet usually held half-yearly. The summative evaluation is done during terminal tests. Even if some students don't perform well or clear the eligibility condition, then and extra chance is given to the student for his/her evaluation. All faculty members follow the formative approach to measure students' achievements performance through 1) group discussion 2) class test 3) verbal test 4) assignments. For summative approach two terminal tests are taken in the college. If any student doesn't clear the condition of these terms tests then one special test is taken to improve his performance for final examination. This is how the institution uses the formative and summative evolution approaches in the campus. There is complete transparency in the internal assessment. The criterion adopted is as directed by the University. All the students are familiar about the transparency in internal assessment. 30 weightage is given to the internal marks obtained by the student in each and every semester. 20 marks for internal examination and 10 marks for seminar. After preparing the assessment report, it is submitted by the concerned teacher

and the same is displayed on the notice board at the end of the session. The internal assessment is made by the faculty members keeping in mind the following aspects / factors of students' performance during the academic year:

1) Class attendance 2) Class assignments 3) Score in the terminal examinations 4) Seminar marks 5) Score in internal examinations etc. In spite of all the above aspects of the students, their behavioural aspects, independent learning and communication skill etc. are also taken into consideration during the assessing of a student. The institution uses assessment and evaluation both as an indicator for evaluating students' performance. The students who excel in the academics, sports or extracurricular or extra mural activities are given due advantage in assessment. General classroom behaviour of the students is also kept in mind when evaluation of a student is undertaken.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Academic calendar: The college adopts the Academic calendar supplied by the Rayalaseema university in order to ensure uniformity of performance of different colleges affiliated. However, the principal, after a review of this academic plan, conducts the staff council meeting and after thorough deliberations, resolves certain alterations/improvements to the plan to suit the local needs of the institution. Accordingly, each department prepares its own annual academic plan and submit a copy to the principal. On the basis of this the principal prepares the annual institutional academic plan and communicates the same to the Commissioner of collegiate education. Teaching plan: Every lecturer prepares annual plan by dividing the syllabus month-wise depending on the number of working days available. The incomplete lessons, if any, are completed by engaging extra classes. Various evaluative measures like unit tests, classroom seminars and tutorials are conducted to ensure the comprehensive levels of the students. Institutional Plan The institutional plan for each academic year is prepared and preserved by the principle for occasional check back and supervision. A copy of same is uploaded in the college website.

Percentage of power requirement of the University met by the renewable energy sources

Energy conservation The college campus is overly warm and overly cold. The college class rooms are so airy and well lighted still the institutions has done away with the orthodox lighting system and installed CFLs in some class rooms. This has helped a lot in conservation of electricity Water harvesting: The college is having one bore well of different locations to raise time water table. Water harvesting pits are arranged in certain areas of the college campus. This helps to drain water when it rains and increase the ground water level. Efforts for carbon neutrality: The college its own level has taken up

certain preventive measures to check the emission of carbon dioxide. The college has made arrangements for the parking of the vehicles of the students in the college parking place. This helps in keeping the camps as much as possible clean. The dead leaves and the waste papers are not allowed to put on fire. The leaves are buried in the soil itself and the papers are disposed off. Plantation: The college campus is totally eco friendly. For this the head of the institution and the whole staff is committed and because of the commitment and involvement, the campus can claim to the first polythene/ plastic free zone. A lot of expenditure is incurred to keep the environment green. For this the college support staffs is working very whole heartedly. The number of trees are planted. The institution organises some programmes like Vana Mahotsavam and Vanam-Manam every years to inculcate this tradition amongst its students. Swatchh Bharat: We all are well aware that Swachhata Activity is one of the dream and prestigious activities/Projects undertaken by our hon'ble Prime Minister Sir Sri Naredra Modi ji. So, in the welfare of society, nation and to keep up good environment, ecological balance, it is every one's responsibility to maintain swachhata in and around us. 7.2 - Best Practices

7.2.1 – Describe at least two institutional best practices

Two Best Practices of the institution - 2019 -20 BEST PRACTICE- I 1. Title of the Practice Youth Red Cross Society 2. Goal • To increase students participation in community services • To aware about Social Problems and solutions. • To sensitize people about blood donation. • To develop leadership qualities and team spirit. 3. The Context The Indian Red Cross Society (IRCS) is a voluntary humanitarian organization to protect human life and health based in India. It is part of the International Red Cross and Red Crescent Movement, and so shares the Fundamental Principles of the International Red Cross and Red Crescent Movement. The societys mission is providing relief in times of disasters/emergencies and promoting health care of vulnerable people and communities. Youth Red Cross Society of Government Degree College, Banaganapalle was stared in year 2019, at present more than 300 volunteers are actively involved in Social activities. Youth Red Cross helps the students to inculcate discipline in them and to understand their responsibilities towards their countrymen, especially the poor and downtrodden. 4. The Practice Youth Red Cross Society is a group of students, who actively involved in social activities. This students club lead by a team leader in the guidance of coordinator. Coordinator will prepare a plan of action prior to the beginning of club activities. He will give a list of students, who participate in the YRC club to the district coordinator. According to the plan of action we involved in the social activities in the college surrounding villages. We have conducted so many social activities like visiting to the old age homes, distribution of milk and fruits in the Government hospital, Swatch Bharat activities and blood grouping in the college students. 5. Evidence of Success Each and every activity we have conducted with self satisfaction. All YRC club members are happily involved in the club activities. When they visited old age homes, they feel like their parents and served whole-Heartedly. While going to Government hospital, they have spent their pocket money to purchase milk and fruits. Students spoke with the patients about their health condition. 6. Problems Encountered and Resources Required Youth Red Cross Programme is an excellent social activity. But though they are college students we can't get enough money to get involved in all other social activities, so we expect some funds from the government. According to the YRC plan we cannot serve or help people in need after the month of December but, it will be helpful if you extend till the month of March. BEST PRACTICE- II 1. Title of the Practice Departmental libraries 2. Goal • To create mini libraries. • To prepare for competitive exams or courses. • To conserve valuable time. • To refer the books on the spot. 3. The Context Libraries help students to learn a bit more than they get from their teachers. But, always going to college libraries consume time and searching the specific subject books also consumes time. To reduce this type of time consumptions we have introduced departmental libraries in college. So that the students can easily find the book they want and save the time. 4. The Practice To maintain these libraries we have brought few books from the central library those which belongs to specific subject and kept them in that departmental library. We are maintaining registers for distributing the books to the students. Few books are donated by the lecturers and philanthropists. Syllabus and model papers are also available in the departmental library. The books are distributed at the starting of the academic year, and the students can exchange their books for every 15 days. E-Books are available in the departmental library, which will be distributed by the social media. 5. Evidence of Success These departmental libraries have helped the students in many ways like they have got better scores in their exams and few students who participated in other competitive exams have taken the help of the books in the

libraries. Few have even got better in the subjects they are worse. As students can't afford all the books they want, these libraries can help them go through the books they want around them. 6. Problems Encountered and Resources Required Even though we have overcome few things from these libraries, but we are still lagging in things like: we don't have enough books that can help the students. Funds are not available to purchase new books and furniture that is required for the libraries. Lecturers are feeling burdensome for maintaining the registers. As few students quit colleges in the middle of the academic year, then we may lost few important books.

7.3 - Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Performance of the institution in one area distinctive to its vision, priority and thrust The College aspires to have a transformational impact on students through comprehensive education by inculcating qualities of competence, confidence and excellence. The college has specified its graduate attributes clearly. At the first place, the college aims to make its students employable. The college endeavours that its students should become valuable global citizens. To make the students academically sound enough, so that they are able to stare in the eyes of the competitive world. The college ensures that by the time the student finishes his/her education in the college, he attains all these specified attributes. The faculty members of the college work rigorously throughout the academic year to enable the students imbibe the valuable lessons by way of seminars, moral lectures, presentations and field work. The faculty sensitises students towards inclusive social concerns, human rights, gender and environmental issues to make them sensitive, sensible, useful and conscientious global citizens.
