## CRITERION I – CURRICULAR ASPECTS

### 1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Implementation of the curriculum Our college prepares action plans for effective implementation of the curriculum at the outset; the Principal and advisory committee of our college conducts meetings with the staff members of various departments to develop various strategies for effective implementation of the curriculum. ? Teachers are encouraged beforehand to impart the curriculum through innovative teaching methods such as presentations, assignments, discussions, workshops, seminars, industrial visits, computer education apart from regular/traditional teaching methods. Thereafter, the staff members of various teaching departments conduct their internal meetings and develop academic plans for the coming academic year. ? Keeping in view, the number of working days available, the syllabus is divided into units which are to be finished by a given deadline. ? Each department of our college follows the academic calendar issued by the affiliating university and the college strictly maintain the academic records which are provided by Commissioner of collegiate Education. Accordingly the college plans its annual academic schedule which clearly mentions the topics to be taught and no. of working days allocated to respective topics, the amount of syllabus is completed and tested in various classes, through monthly unit tests and internal exams. Effectively translating the curriculum and improving teaching practices The curriculum is prescribed by Rayalaseema University, Kurnool to which the college is affiliated and the same is followed. However the lecturers of this institution make suggestions from time to time keeping in view the needs of the society and trends at the national and global levels. Our college also encourages the teachers to participate in the Orientation/Refresher Courses/ Workshops/ Seminars organised by the various Universities to update the knowledge and to improve the teaching practices. Curriculum delivery and transaction on the Curriculum The curriculum adopted is as prescribed by the affiliating university supplementing the academic activities such as debates, group discussions, workshops, exhibitions. Though the curriculum is designed and revised by the University, but for effective curriculum delivery, we give weightage to academic improvement and at the same time give sufficient importance to overall development of students by encouraging them to work with various forums of the college such as Student Council, Faculty forums for overall development of students by encouraging them to work with various items. Our college and the teaching faculty have taken many initiatives for effective delivery of the curriculum. Our college faculty is trained by the computer department to make them familiar with the use of computers so that they are able to use the modern Technological resources like internet, LCD projectors etc. to supplement their class room lectures. In addition to the regular subject classes, the college also organises special lectures by inviting experts from various fields to share their knowledge with the students. The college also organises special Personality Development Programmes for the students. The students are also taken out for educational tours such as industries/trade Fairs, exhibitions and places of historical importance to provide them first-hand knowledge of various things.

Feedback Obtained
Our college has a clearly set and defined mechanism of obtaining the feedback from the students to improve the performance and quality of the institutional provisions. The advisory committee consisting of the senior teachers collects the feedback from the graduates regarding learning processes. The IQAC has developed a format to obtain the feedback of its students, who are employed in

various organizations. The inputs are obtained from them and further used to improvise the overall competency of the students for employability. Students give the feedback about the teachers at the end of each term. Students of each department are expected to do so for all the teachers concerned with their class. Besides, informal interaction between students and the class teacher/Care taker/Principal about issues pertaining to teaching Quality is also encouraged. Teachers are counselled by the senior faculty and/or principal regarding measures to the improve subject, understanding and/or teaching skills. Pass outs, job holders who studied at our college visit our college frequently for various purposes. In informal chats they give us their valuable feedback regarding the quality of education in our college. Their suggestions are noted with interest and efforts will be made to incorporate their advices wherever possible.

### 2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

Meeting of the staff council, the examinations committee and the general staff are held by the principal and after necessary deliberations and resolutions the evaluation methods are finalised. In general methods like monthly class tests, quarterly tests, pre final tests, quiz competitions, elocution and essay writing competitions are made use of. The evaluation methods are communicated to the students and the faculty members by means of notices circulated and display on the notice board. After evaluation of the performance of the students, the percentage of attendance/marks/grading obtained by them is communicated to their parents through letters dispatched by post. The student progress is discussed with both the student and their parents at the parent teacher meet usually held half yearly. The summative evaluation is done during terminal tests. Even if some students don't perform well or clear the

eligibility condition, then an extra chance is given to the student for his/her evaluation. All faculty members follow the formative approach to measure students' achievements performance through 1) group discussion 2) class test 3) verbal test 4) assignments. For summative approach two terminal tests are taken in the college. If any student doesn't clear the condition of these terms tests then one special test is taken to improve his performance for final examination. This is how the institution uses the formative and summative evaluation approaches in the campus. There is complete transparency in the internal assessment. The criterion adopted is as directed by the University. All the students are familiar about the transparency in internal assessment. 30 weightage is given to the internal marks obtained by the student in each and every semester. 20 marks for internal examination and 10 marks for seminar. After preparing the assessment report, it is submitted by the concerned teacher and the same is displayed on the notice board at the end of the session. The internal assessment is made by the faculty members keeping in mind the following aspects / factors of students' performance during the academic year: 1) Class attendance 2) Class assignments 3) Score in the terminal examinations 4) Seminar marks 5) Score in internal examinations etc. In spite of all the above aspects of the students, their behavioural aspects, independent learning and communication skill etc. are also taken into consideration during the assessing of a student. The institution uses assessment and evaluation both as an indicator for evaluating students' performance. The students who excel in the academics, sports or extracurricular or extra mural activities are given due advantage in assessment. General classroom behaviour of the students is also kept in mind when evaluation of a student is undertaken.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

**Academic calendar:** The college adopts the Academic calendar supplied by the Rayalaseema university in order to ensure uniformity of performance of different colleges affiliated. However, the principal, after a review of this academic plan, conducts the staff council meeting and after thorough deliberations, resolves certain alterations/improvements to the plan to suit the local needs of the institution. Accordingly, each department prepares its own annual academic plan and submit a copy to the principal. On the basis of this the principal prepares the annual institutional academic plan and communicates the same to the Commissioner of collegiate education. **Teaching plan:** Every lecturer prepares annual plan by dividing the syllabus monthwise depending on the number of working days available. The incomplete lessons, if any, are completed by engaging extra classes. Various evaluative measures like unit tests, classroom seminars and tutorials are conducted to ensure the comprehensive levels of the students. **Institutional Plan** The institutional plan for each academic year is prepared and preserved by the principle for occasional check back and supervision. A copy of same is uploaded in the college website.

## 7.2 – Best Practices

### 7.2.1 – Describe at least two institutional best practices

**BEST PRACTICE- I**

1. Title of the Practice Kishori Vikas Yojana
2. Goal
  - To increase students participation in community services
  - To aware about child and woman problems and salvation.
  - To sensitize school children's about adolescence age.
  - To develop leadership qualities and team spirit.
3. The Context Student's participation in community services is very less. Efforts are made continuously to increase student participation. The Kishori Vikas programme was launched in 2017. Under the initiative, preventive measures are being taken up by the Women and Child Welfare Department to sensitize adolescent girls and create awareness among them. For the first time in India, a special intervention was devised for adolescent girls using the ICDS infrastructure. ICDS with its opportunity for childhood development seeks to reduce both socioeconomic and gender inequities. The Adolescent Girls (AG) Scheme under ICDS primarily aimed at breaking the intergenerational lifecycle of nutritional and gender disadvantage and providing a supportive environment for selfdevelopment. The objective of the Scheme is to increase selfconfidence, boost moral and give dignity and to educate and create awareness among adolescent girls in areas of gender awareness, menstrual health and hygiene, nutrition, social issues like child marriages, child abuse, child trafficking and career guidance.
4. The Practice A team of ICDS officers visited college to select women students who act as the master trainers or resource persons. First they have given training to students about kishori vikas scheme. A good amount of students taken training to increase selfconfidence, boost moral and give dignity and to educate and create awareness among adolescent girls in areas of gender awareness, menstrual health and hygiene, nutrition, social issues like child marriages, child abuse, child trafficking and career guidance. Then students form in different teams and went to the schools of their surroundings with the coordinators. There they have given awareness about kishori vikas.
5. Evidence of Success Most of the women students are participated in this programme. They learned about community services. They showed leadership qualities and how to form a team and coordinate with it. They explained very well about adolescent age, gender awareness, menstrual health and hygiene and nutrition. School girls are tested with objective test after this awareness programme and achieved good results.
6. Problems Encountered and Resources Required ICDS officers came to the college very late to aware the master trainers. Some women students did not get bus fares to visit surrounding

schools. Materials like pamphlets and brochures supplied by the officers are inadequate. Maximum students are benefited with this best practice. BEST PRACTICE- II

1. Title of the Practice Swachh Bharat activities
2. Goal
  - To make consciousness about surroundings
  - To inculcate ecological or environmental values etc.
  - To maintain clean and green environment.
  - To motivate people about open defecation free environment.
3. The Context We all are well aware that Swachhata Activity is one of the dream and prestigious activities/Projects undertaken by our hon'ble Prime Minister Sri. Naredra Modiji. So, in the welfare of society, nation and to keep up good environment, ecological balance, it is every one's responsibility to maintain swachhata in and around us. As a part of this, our college organized programs/activities like Cleanliness Hygiene, The war against Mosquitoes, Plantations, Clean Green, ODF programs and Swachhata Competitions (Elocution, Rangoli etc.), etc., so as to maintain Swachhata and create awareness in public.
4. The Practice Govt. Degree College, Banaganapalle team organized campaign on ODF and Eradicating Manual Scavenging. As a part of this activity, we visited Meerapuram, Pathapadu, Venkatapuram, Sadukottam, Illuru Kothapeta and Yenakandla villages. The excretion of stools and urine and the people walking without slippers or shoes cause many diseases such as roundworms and pinworms. Our students explained about problems encountered with open defecation. Through ODF program, we have distributed pamphlets and tied banners in the villages. Plantation was done to make environment clean and green.
5. Evidence of Success The Staff members and Students of Government Degree College, Banaganapalle conducted different activities on Swachhata like ODF program, Clean Green, Plantations and created awareness among the students and public. We have organized rallies and campaigns to enhance the awareness in the students, their parents and people. By conducting the Swachhata activities periodically, we have inculcated hygienic culture and clean environment concept in the society. During ODF activity village people got constructed Personal Latrines and this is really a fantastic program among the Swachhata activities.
6. Problems Encountered and Resources Required In the beginning the faculty and students faced problems in travelling different villages to do survey about ODF. Travelling is most expensive and time taking. We overcome this problem by collecting donations from the Principal and staff members. Without staff members, villagers cannot learn from the students. Hence we divide the staff members to be a part in student's team. Class work is much disturbed with this activity, but we have taken extra class during second Saturday and Sundays to fill the lapses.
