

BEST PRACTICE- I

1. Title of the Practice

Kishori Vikas Yojana

2. Goal

- To increase students participation in community services
- To aware about child and woman problems and salvation.
- To sensitize school children's about adolescence age.
- To develop leadership qualities and team spirit.

3. The Context

Student's participation in community services is very less. Efforts are made continuously to increase student participation. The Kishori Vikas programme was launched in 2017. Under the initiative, preventive measures are being taken up by the Women and Child Welfare Department to sensitize adolescent girls and create awareness among them. For the first time in India, a special intervention was devised for adolescent girls using the ICDS infrastructure. ICDS with its opportunity for childhood development seeks to reduce both socio-economic and gender inequities. The Adolescent Girls (AG) Scheme under ICDS primarily aimed at breaking the inter-generational life-cycle of nutritional and gender disadvantage and providing a supportive environment for self-development. The objective of the Scheme is to increase self-confidence, boost moral and give dignity and to educate and create awareness among adolescent girls in areas of gender awareness, menstrual health and hygiene, nutrition, social issues like child marriages, child abuse, child trafficking and career guidance.

4. The Practice

A team of ICDS officers visited college to select women students who act as the master trainers or resource persons. First they have given training to students about kishori vikas scheme. A good amount of students taken training to increase self-confidence, boost moral and give dignity and to educate and create awareness among adolescent girls in areas of gender awareness, menstrual health and hygiene, nutrition, social issues like child marriages, child

abuse, child trafficking and career guidance. Then students form in different teams and went to the schools of their surroundings with the coordinators. There they have given awareness about kishori vikas.

5. Evidence of Success

Most of the women students are participated in this programme. They learned about community services. They showed leadership qualities and how to form a team and coordinate with it. They explained very well about adolescent age, gender awareness, menstrual health and hygiene and nutrition. School girls are tested with objective test after this awareness programme and achieved good results.

6. Problems Encountered and Resources Required

ICDS officers came to the college very late to aware the master trainers. Some women students did not get bus fares to visit surrounding schools. Materials like pamphlets and brochures supplied by the officers are inadequate. Maximum students are benefited with this best practice.

BEST PRACTICE- II

1. Title of the Practice

Swachh Bharat activities

2. Goal

- To make consciousness about surroundings
- To inculcate ecological or environmental values etc.
- To maintain clean and green environment.
- To motivate people about open defecation free environment.

3. The Context

We all are well aware that Swachhata Activity is one of the dream and prestigious activities/Projects undertaken by our hon'ble Prime Minister Sri Naredra Modiji. So, in the

welfare of society, nation and to keep up good environment, ecological balance, it is every one's responsibility to maintain swachhata in and around us. As a part of this, our college organized programs/activities like Cleanliness & Hygiene, The war against Mosquitoes, Plantations, Clean & Green, ODF programs and Swachhata Competitions (Elocution, Rangoli etc.), etc., so as to maintain Swachhata and create awareness in public.

4. The Practice

Govt. Degree College, Banaganapalle team organized campaign on ODF and Eradicating Manual Scavenging. As a part of this activity, we visited Meerapuram, Pathapadu, Venkatapuram, Sadukottam, Illuru Kothapeta and Yenakandla villages. The excretion of stools and urine and the people walking without slippers or shoes cause many diseases such as roundworms and pinworms. Our students explained about problems encountered with open defecation. Through ODF program, we have distributed pamphlets and tied banners in the villages. Plantation was done to make environment clean and green.

5. Evidence of Success

The Staff members and Students of Government Degree College, Banaganapalle conducted different activities on Swachhata like ODF program, Clean & Green, Plantations and created awareness among the students and public. We have organized rallies and campaigns to enhance the awareness in the students, their parents and people. By conducting the Swachhata activities periodically, we have inculcated hygienic culture and clean environment concept in the society. During ODF activity village people got constructed Personal Latrines and this is really a fantastic program among the Swachhata activities.

6. Problems Encountered and Resources Required

In the beginning the faculty and students faced problems in travelling different villages to do survey about ODF. Travelling is most expensive and time taking. We overcome this problem by collecting donations from the Principal and staff members. Without staff members, villagers cannot learn from the students. Hence we divide the staff members to be a part in student's team. Class work is much disturbed with this activity, but we have taken extra class during second Saturday and Sundays to fill the lapses.
